September 21, 2022	Randi Boterman	<p>Good afternoon,</p> <p>As a concerned parent on many levels of this boundary review, I feel I have thought long and hard about this email before putting my thoughts to paper. As I am sure you are aware, and something that I will not stop saying, I am very disappointed in how this boundary review was labeled in all emails going to parents. It clearly did not state that it effected the grade school. I am not sure what the intend was, but I do know that it did not look like transparency from the board. This fueled tempers from the community. We can't go back in time, but please know you have lost a bit of the community's trust with how this was handled.</p> <p>Regarding adding grades 7/8 to the new high school. I have seen it work in other districts , but I have also seen it not work. My eldest child just started [REDACTED], the atmosphere is different in high school then grade school. Again, I understand that this school did not get funding as a 9-12, but got approved for a 7-12. Please make sure to follow the guidelines set out by the districts where 7-12 was successful. My hope is that all bussing will be separated, separate entrances, and separate bathrooms. How are you going to make these accommodations for my/our younger children going into this school?</p> <p>Finally, I really don't like that SJP11 is being split up. We are a strong community, and we would like to stay that way with all of our students attending our school. I feel bad for people in the effect area(s) having to move away from their school community, really bad. I also understand that there are always people who aren't going to be happy when it comes to boundary reviews, but it doesn't mean I have to like it.</p> <p>My choice. Option: Let SJP11 be as it currently is.</p> <p>Randi</p>	<p>Hi Randi,</p> <p>Thank you for your interest in the East Kitchener 7-12 Boundary review. Your comments will be shared with the Boundary Review Committee (BRC) and Board of Trustees before any decision is made.</p> <p>Gerald Foran</p>
